

Get trained. Get down safe.

Heights **READY**[™]

HeightsREADY[™] safety training is essential for any employee working at heights in an industrial environment. Get HeightsREADY[™] today.

Working at heights is one of the most hazardous situations in the workplace. With **Heights READY** training you'll gain the essential skills and knowledge to prevent accidents or rescue workers while working at heights. Our course is tailored to your work environment.

Whether you need new or re-certification the Health Security & Education **Heights READY** course will give you the knowledge to help keep you and your crew safe on the worksite.

HEIGHTS READY[™] is the right choice to:

- Instill confidence in your team to complete heights work safely with the right equipment
- Learn what equipment is required for your type of work and how to use it properly and safely
- Teach crews how to maintain safety equipment to help prevent costly replacements
- Health Security & Education has an advanced mobile practical trailer for a realistic training experience
- Health Security & Education can also assist you in purchasing the heights equipment necessary to complete industry specific tasks
- Industry Heights Rescue courses on request as an add on to your Heights training
