

# Get trained. Get a career.

MineREADY™ training is the first step towards a rewarding career in the mining industry. Get MineREADY™ today.

Get hands-on learning with the latest safety training techniques. From the basics through to well control training, gain the complete skill-set required for land rig operation and safety.

The Health Security & Education **Mine READY** course provides you with a basic understanding of safety and mining requirements to ensure you are fully prepared for your first step towards a rewarding career in the mining industry.

This makes **Mine READY** a great choice for any position, whether you're new to the industry, or an experienced supervisor requiring re-certification.

### Mine READY™ is the right choice.

- Structured specifically for the mine industry
- Flexible course outline, adaptable for new recruits to supervisors who need new or re-certifications
- Adaptable enough to be delivered anywhere
- Courses can be tailored to suit your organisation's specific requirements (Documents & Procedures)
- Cost effective safety training with scheduling that works with your timeframes
- The Health Security & Education Mine READY course outline is flexible and can be adjusted to include training from our other professional courses to suit your organisations needs.
